According to Kathleen Price, Founder and Director of the Mission of Love, this will be the 47th Mission of Love that the 910th Airlift Wing has participated in. "It doesn't get much better than to be able to be of service to those in need," said Kathleen Price, founder and director of "The Mission of Love."

The Denton Program allows private U.S. citizens and organizations to use space available on U.S. military cargo planes to transport humanitarian goods, such as clothing, food, medical and educational supplies, and agricultural equipment and vehicles, to countries in need. The program is jointly administered by a government agency known as USAID, the Department of State (DOS), and the Department of Defense (DOD). In FY 2006, 576,000 pounds of humanitarian goods were sent to 12 different countries through this program.
