Dear Kathy Price,

I am writing to thank you and the Mission of Love for the many generous donations you have made to our organization and to Nepal over the years. Several years ago the Mission of Love provided 6 wheel chairs and six sets of crutches for the SOS Village in Sanothimi, Nepal. As you know, the SOS Village takes in orphaned children throughout Nepal. They have one village which is dedicated to the care of handicapped children who have been abandoned by their parents either through death or poverty. The SOS Village was in desperate need of these items. On another occasion, the Mission of Love arranged for the shipment of the factor material needed by two hemophiliac boys being sheltered at the SOS Village. That was a very serious situation. There was no factor material available in Nepal. You, Kathy, were able to contact the necessary authorities to supply the material, then you contacted executives at Fed Ex who agreed to fly the material to Nepal so the boys would not be at risk. This year, you have again helped our organization with donations of clothes and blankets which are to go, not only to Nepal, but also to the Democratic Republic of Congo which ranks 9th in the world for child mortality. Thank you again for your generosity and work on behalf of these poverty-stricken people.

Mary Celeste Starzyk
Director
