A opportunity of a lifetime!

I would like to share with you our need to build homes for the Lakota Indigenous people of the Pine Ridge Indian Reservation. Our Mission of Love Team Will be going out to work on three buildings for Richard Broken Nose - Patricia Catches the Enemy - and Jane Goodall's Roots and Shoots Office building Program June 1 - 11.

We need tools to make this work, so that the local people can come and join our hands to build community for the people in need. Many of us have triples of the same tools, and I am suggesting you spread the word, via your friends, churches, and organizations that we are in need of these supplies. The list follows with some of the projects that we have done for the Lakota Nation. We have a Mission of Love storage building garage on the Reservation where we can store the supplies for our next building mission. When we have extra tools, the local people can work right along with us and learn a trade for future work. Our Mission of Love building team will also be going back to the Reservation in September and October.

We are in need of monetary funding also to pay for foundations and moving of the homes that we purchased from the Ellsworth Air Force Base via the Tribe. Any help, will be appreciated.

Thank you for considering making a difference in the lives of our First Americans.

**With gratitude,
Kathy**
